The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).</p>

Continuation of 11. does NOT place the application in condition for allowance because of the reasons set forth in the previous rejection. Applicants' amendment filed February 1, 2006 contain the limitation "said porous regions comprising holes, filled with a porous material, provided in a base plate" in claims 2-3. However, this limitation raises a new issue since the previous versions of the claims required only a "porous surface" and did not require consideration of "holes" filled with "porous material in a base plate". Because this new issue would require further searching and consideration, it will not be entered.
